

Editing Your Posts

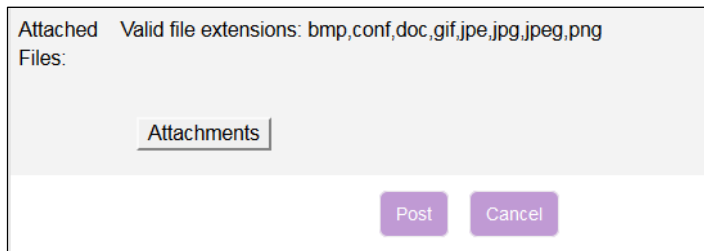

This information is for the ALZConnected editor for posting.

Editor Toolbar:

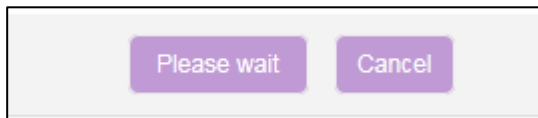

The editor has several features similar to most word processing applications.

Members can attach images to their posts using the features at the bottom of the post screen:

The features may require additional saving time, so please be sure not to click on anything else while the **Please Wait** button appears and you are returned to the topic forum page. **Clicking elsewhere during this time may cause your post to be lost.**
