Please join us for a rally to protest the Medicare draft coverage decision for FDA-approved Alzheimer's treatments. If finalized, the decision will set a dangerous precedent for rationing Medicare beneficiaries' access to current and future FDA-approved Alzheimer's drugs, as well as treatments for other serious and life-threatening conditions approved under the FDA's accelerated approval pathway. The event will feature people living with Alzheimer's disease and family caregivers, allied chronic disease patient advocates, members of Congress, and senior leaders from a number of advocacy organizations.
